

AV125 - Contents

Section 1: Waterloo International

We see early construction in 1991 up to 1994 near completion. Then a wait in the departure lounge to be called for our train. On the platform a Eurostar service arrives before we depart.

Section 2: Waterloo to Farnham Road

We race another 373 set from Waterloo to Vauxhall. After Wandsworth Road we watch a Eurostar pass through every station between Brixton and Bickley. A visit is made to St Mary Cray, Shoreham (diverted services) and finally Farnham Road near the High Speed line.

Section 3: Petts Wood to Ashford

After Petts Wood we pass all stations to Tonbridge. A number of services are seen passing through Tonbridge. We see the Eurostar passing through most stations en route to Ashford International.

Section 4: Ashford to Channel Tunnel

Both stopping and fast services are seen in the station. At Westenhanger we stand on the DC platform to watch the Eurostar on the new line. Then at Sandling we see one on the DC and the other on HS1. We then head towards the tunnel.

Section 5: Channel Tunnel to Bruxelles

After exiting the tunnel we travel a little while on the AC through France before returning to the DC as we enter Belgium. Filmed in 1995, the old route is taken but we do see the construction work for the new High Speed line while en route. Eventually we arrive in Bruxelles and terminate at Midi.

Running time of this DVD-R is 67 minutes.
