

AV501 - Contents

Section 1: Waterloo – Salisbury (Direct)

Firstly we see the forward loco coupling to the train. After train departure the released loco moves off. Many locations and examples of the class are viewed en route with stops made at Woking, Basingstoke and Andover before finally arriving at Salisbury where one loco is detached.

Section 2: Salisbury – Exeter St David's

A failure stands in Salisbury bay platform. After departure we visit all stops to Yeovil Junction as well as many passing locations. Beyond Yeovil many stops and locations are witnessed before finally arriving at Exeter St David's. Stock is shunted away.

Section 3: Exeter – Westbury - Salisbury

A Sunday engineers' train departs Exeter St David's then stock for our service is run into the platform. After departure the route is retraced to Yeovil Junction, then via Per Mill, Castle Cary and to Westbury where the loco is seen rounding around the train. A short journey is then made on to Salisbury.

Section 4: Salisbury – Portsmouth – Waterloo

After departing Salisbury at Tunnel Junction we head towards Southampton then St.Denys, Fareham, Southsea and terminate at Portsmouth Harbour. After stock movements we continue to Guildford and Woking. A stop at Clapham Junction is made before terminating at Waterloo, our final destination and end of this DVD.
