

ZF01 - Contents

Filmed on location by ZEBRA Films between 1993 and 1994 this DVD features the end of slam door DMUs and EMUs in the West Midlands.

A variety of DMU and EMU classes cover the cross city diagrams: 117, 119, 150, 304, 308, 310 and the recently introduced 323.

At Redditch and Barnt Green we see 117311 carrying the "End of an Era Cross City Dmu" headboard, although first generation DMUs do work after this date. All stations between Longbridge and Five Ways are visited on a number of occasions throughout the two year period.

Running time of this DVD-R is 89 minutes.
